

Avisae OptimALL Nutrition™ bliss™ adaptogen mist

Avisae OptimALL Nutrition™ bliss™ adaptogen mist is a unique formula that helps reset your body’s serotonin pathways for improved mood, better sleep and increased focus. Supported by seven patents and a placebo controlled clinical trial, the unique ingredient focuses on rebalancing your serotonin set-point via a proprietary ingredient, Serroctin.*

Serotonin is a widespread neurotransmitter in the central nervous system and gastrointestinal tract. It is synthesized from the amino acid tryptophan via a conversion pathway that utilizes Vitamin B6. Serotonin is involved in the control of motility, which enables food to pass through the GI tract. In the brain and central nervous system it is involved in the modulation of mood, appetite and sleep.

Avisae OptimALL Nutrition™ bliss™ adaptogen mist delivers its benefits via a simple, flavorless oral spray which can be used at any time of day.

Product Features

- The effectiveness of bliss™ on sleep has been demonstrated in a clinical trial.*
- 52 subjects were randomly assigned in double-blind fashion to receive bliss™ (27 subjects) or a placebo (25 subjects) for 4 weeks. Compared to the placebo group, the Bliss™ group:
 - Had 8% less Tension
 - Had 15% less Depression
 - Had 25% less Irritability
 - Fell asleep 33% faster
 - Had 50% better sleep “efficiency”
 - Had 40% better sleep “quality”
 - Woke up 30% fewer times each night
 - Experienced 24% more time in deep REM sleep

KEY BENEFITS

OptimALL Nutrition™ bliss™ adaptogen mist provides a number of key benefits.*

- Improved Mood and Optimism*
- Emotional Energy*
- Rejuvenated Sleep Patterns*
- Sharpened Mental Focus*
- Normalized Libido & Sexual Performance*
- Lessened Stress & Anxiety*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

- Made in the U.S.A. according to rigorous FDA GMP standards.*
- Free from preservatives, toxins, pesticides and heavy metals.*
- Soy Free, Gluten Free, GMO Free, Dairy Free

Ingredient Information

ACTIVE INGREDIENTS:

- Proprietary Serocin blend (zea mays) protected by seven US patents (US Patent Numbers 6667308, 7507731, 7521467, 7521468, 7524877, 7541356 and 7794761.)

OTHER INGREDIENTS:

- Purified water
